

Education For All

Out-of-school children

Progress towards getting all children into school is too slow

Children's education prospects at risk

Among children who attend school, 25% drop out before completing primary.

More than 1/2 of out of school children are in sub-Saharan Africa

million children are out of school

57

31 million of these are girls

49%

Of those 57 million will probably never set foot in a classroom

South and West Asia 
reduced out of school children by two thirds between 1999-2011
